SUMMER FORAGE TECHNICAL FACT SHEET

Betta Graze

Sorghum x Sudan Grass

First to plant, first to feed

Excellent recovery from grazing or cutting, the fast growing nature of Betta Graze and its early seedling vigour, mean it is the first forage sorghum you can plant and the first you can feed to any type of livestock. Betta Graze is highly palatable and is highly suited to general grazing, hay production and round bale silage.

Best uses: Grazing, hay, round bale silage

Key Features

- First to plant for early summer feed due to its early seedling vigour
- Small diameter stems suits grazing by many livestock types, and hay and round bale silage
- Known for robust regrowth and getting more leafy feed sooner after grazing or cutting.
- Has a high leaf to stem ratio delivers a greater volume of feed at all plant heights, especially less than 1 m
