CORN TECHNICAL FACT SHEET

P9911

CRM 99 | Short Season | Silage and feed grain

An impressive hybrid all round

For grain growers P9911 has an outstanding grain yield with a quick dry down for field dried grain. Silage growers will benefit from the tall strong plant structure to provide an excellent silage yield, stacked with high grain content. This is an impressive all round hybrid with excellent drought tolerance for dryland growers.

Best uses: Silage and grain

Key Features

- A quick season dual purpose hybrid
- Excellent grain yield for maturity; ideal option for grain growers in cooler regions aiming for field dry down
- Excellent staygreen to maximise silage starch content
- A key maturity option in the Pioneer corn range providing growers more yield in all conditions
- A tall, impressive plant with unmatched silage performance and yield stability
- Combines the best of bulk and energy for maximum milk productivity
- Outstanding dryland adaptability
