

PIONEER® HYBRID 43Y23 RR

THE PROVEN HIGH YIELDING HYBRID OPTION FOR RELIABLE RETURNS IN TOUGH ENVIRONMENTS

The earliest maturity Y Series® hybrid with Roundup Ready® technology. This hybrid sets the industry benchmark on shatter tolerance and displays exceptional adaptability and yield for maturity. Exceptional hybrid vigour helps deliver effective weed control results in low and medium rainfall growing zones.

KEY FEATURES

- Proven consistency in yields over a wide range of seasons and environments. This hybrid has a solid bottom end yield for those tough environments, with the potential to cash in when conditions permit. Performance is supported by excellent results in GRDC National Variety Trials.
- Recommended planting option in low and medium rainfall growing zones. An effective option for managing weeds and herbicide resistance with exceptional vigour, crop competition and yield potential.
- Shorter plant stature, outstanding standability and shatter tolerance aids ease of management where crops are windrowed or direct harvested.

AGRONOMIC PROFILE

Product type: Y Series® Roundup Ready® hybrid

Herbicide tolerance trait: Tested for tolerance to the registered formulation of Roundup Ready® herbicide for in-crop application in canola.

Maturity: Early season (3)

Phenology Class: Fast

Blackleg rating: R*

GRDC Blackleg Group: B

Grain oil content:	7
Plant vigour:	9
Plant height:	9
Crop standability:	8
Shatter tolerance:	8
Grain test weight:	8

RATING: 1 = poor 9 = excellent

*2018 GRDC rating with standard Betta Strike® treatment

2014-2018 GRDC Long Term Yield Chart - Early Roundup Ready, National Data.
