

PIONEER® HYBRID P1756

HIGH YIELDING PROCESSING HYBRID

Pioneer® hybrid P1756 is a 117CRM corn hybrid uniquely bred in Australia for the Australian corn processing market and the Asian export markets. P1756 exhibits excellent stalk strength and is suited to both dryland and irrigation areas. Since its release in 2014 P1756 has quickly grown to be the number one processing corn hybrid in the Australian market winning the Australian Maize Association National Crop competition 2016/2017 in the irrigated category. It can also be used for silage and with its excellent grain qualities produces high quality silage.

KEY FEATURES

- Best uses: Processing hybrid (grit, feed, silage)
- A unique Australian-bred corn developed for processing markets
- Suitable for irrigation or dryland
- Good disease tolerance
- Excellent stalk strength
- High quality grain
- Suited for early or late plant in most regions.

P1756 TRAIT RATINGS

RATING: 1 = poor 9 = excellent

"P1756 held its grain quality quite well, in a year that's been very tough, its probably proven itself to be the pick of the varieties as far as keeping its grain quality."

David Bailey

Brookstead, Darling Downs, Qld
