

PIONEER® HYBRID 45Y91 CL

UNIQUE PHENOLOGY ALLOWS FOR EARLY SOWING AND GREATER RETURNS

This Y Series® hybrid combines very high yield and grazing potential, coupled with very high oil content, to deliver greater profitability to growers. In addition to offering an outstanding agronomic package, Pioneer® brand 45Y91 CL give the opportunity to extend your sowing window, with its unique phenology allowing early April sowing.

KEY FEATURES

- Excellent performance and hybrid yield potential, deliver greater returns in higher rainfall environments.
- Outstanding agronomic package coupled with segment leading performance makes for reliable results and ease of management.
- Unique phenology, rapid early growth and excellent biomass make this the hybrid of choice for mixed farming operations looking for grazing opportunities.
- Mid season (5) maturity, displaying excellent adaptability, ideally suited to medium to high rainfall environments.
- Delivers excellent early growth resulting in superior crop competition and early canopy closure resulting in enhanced weed control and reduced weed seed set.

AGRONOMIC PROFILE

Product type: Y Series® Clearfield® hybrid

Herbicide tolerance trait: Tested for tolerance to imidazolinone herbicides, OnDuty® and Intervix®.

Maturity: Mid season (5)

Phenology Class: Mid-slow

Blackleg rating: R*

GRDC Blackleg Group: B

Grain oil content:	8
Plant vigour:	7
Plant height:	6
Crop standability:	7
Shatter tolerance:	9
Grain test weight:	9

RATING: 1 = poor 9 = excellent

*2018 GRDC rating with standard Betta Strike® treatment
