Corn – Technical fact sheet

P17822 IT NEW

High yielding, full maturity behemoth.

Exceptional performance for silage and grain, breaking yield barriers.

- Tall plant with excellent root and stalk strength, impressive staygreen and very high resistance to Northern Leaf Blight all combining for preferred silage appeal
- Produces great silage yields with maximum energy content
- Imidazolinone herbicide tolerance adds in crop flexibility to paddock selection and rotations

Outstanding new option to plant alongside P13036 IT, P15744 IT, and P2307 depending on maturity requirements.
