Corn – Technical fact sheet

P15744 IT NEW

Compact hybrid with top end yield potential.

Excellent drought tolerance drives high performance in dryland and irrigated systems.

- Impressive silage and grain yield for maturity across environments
- High Northern Leaf Blight resistance with superior root and stalk strength
- Sound husk cover protects the developing cob and moderate staygreen brings harvest forward in regions with a shorter season
- Imidazolinone herbicide tolerance provides options for in crop grass weed control

P15744 IT performs across dryland and irrigated situations. Replaces P1481 and a slightly longer maturity companion to P1315 IT in the hybrid lineup.
