## Corn – Technical fact sheet

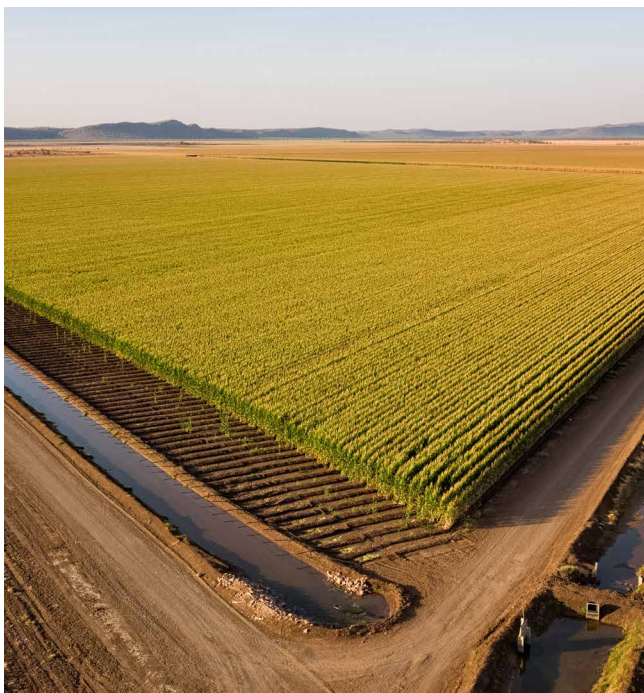

# P1729

### Tall, all-rounder that won't disappoint.

Well balanced, full season hybrid providing consistent and reliable yields with excellent agronomics.

- Excellent drought tolerance and standability, foliar health drives top grain and silage yields for its maturity
- High level performance from Northern Victoria to North QLD, NT & top end Western Australia
- Processing market grain quality gives flexibility of end use from silage, feed grain or processing

Plant alongside P1837 or P1756 for processing markets.
