Summer forage – Technical fact sheet

Super Sweet Sudan (SSS)

Sweet Sudan x Sudan Grass hybrid

A unique Australian product, bred for Aussie conditions.

- Exceptional quick regrowth allows multiple cuts and grazings throughout the season
- Super fine stems deliver exceptional hay quality and bale-wrapped silage, and is suitable for grazing by all stock types
- Low prussic acid potential means SSS is a safer option than sorghum type forages
- Has a prolific tillering habit ensuring the ability to increase biomass production quickly after grazing or cutting
- Super sweet leaf and stem mean SSS is highly palatable at all stages of growth giving better utilisation by all stock palatable at all stages of growth giving better utilisation by all stock

Super Sweet Sudan (SSS) is quick to graze and sustains multiple and intensive grazing. SSS produces high quality hay and round bale silage suitable for sheep and cattle.
