A66

Pioneer® brand Grain Sorghum performance information

Hybrid Name: A66

Quick – medium maturity grain sorghum

Highly adaptable all-rounder.

- Very good head exertion, presenting the head above the canopy even in toughest conditions for ease of harvest.
- Exceptional standability in drought conditions and when charcoal rot is present.
- Reliable grain size minimises screening losses.
- Solid midge rating and pollen quality to maximise grain set in all planting windows.

A66 is an excellent option for grain sorghum growers chasing yield security as a medium quick maturity option and will partner well with all other A-Series hybrids.
