

PIONEER® HYBRID 45Y93 CL

OUTSTANDING YIELD PERFORMANCE TAKES RETURNS TO A NEW LEVEL IN THE CLEARFIELD SEGMENT

This early flowering mid-maturity Y Series® hybrid exhibits extremely high yield potential to set a new benchmark in this segment. The early flowering mid maturity makes this hybrid a perfect choice for high yielding environments where an early flowering habit is desired.

KEY FEATURES

- This exciting Y Series® hybrid demonstrates outstanding returns through the combination of very high yield potential, consistency and added economic benefit of very high oil content.
- Mid maturity (5), displays early flowering habit, ideally suited to high yielding environments and irrigation.
- An outstanding agronomic profile adds flexibility and aid ease of management in high-yielding crops.
- Delivers exceptional early growth resulting in superior crop competition and early canopy closure which enhances weed control and reduces weed seed-set.
- Recommended planting partner to Pioneer® 45Y91 CL & 44Y90 CL.

AGRONOMIC PROFILE

Product type: Y Series® Clearfield® Hybrid

Herbicide tolerance trait: Tested for tolerance to imidazolinone herbicides, OnDuty® and Intervix®.

Maturity: Mid season (5)

Phenology Class: Mid-fast

Blackleg rating: R*

GRDC Blackleg Group: B, C

Grain oil content:	7
Plant vigour:	7
Plant height:	7
Crop standability:	9
Shatter tolerance:	9
Grain test weight:	9

RATING: 1 = poor 9 = excellent

*2020 GRDC rating with standard Betta Strike® treatment

2014-2018 GRDC Long Term Yield Chart - Mid Clearfield, National Data.
